GRABBA TRANSFORMS PHYSICAL INFORMATION INTO DIGITAL INSIGHTS

About Us

Founded in 2005 in Brisbane, Grabba designs and builds state-of-the-art smartphone and tablet attachments for use in data capture, data verification, transaction processing, and more. Grabba has built a decade of client success operating in 81 countries primarily in border security, immigration but also logistics, retail POS, private education and farming.

A fully tailored hardware solution with up to 8 different technologies in the one unit.
